

Node-Red Service

The screenshot displays the IBM Cloud Node-Red service dashboard. The interface includes a top navigation bar with the IBM Cloud logo, a search bar, and links to Catalog, Manage, and Brinda A's Account. A left sidebar lists navigation options: Getting started, Overview (selected), Runtime, Connections, Logs, API Management, and Autoscaling. A top notification banner states: "IBM Cloud Foundry Public is being deprecated. Please see [full details](#)."

The main content area is divided into several sections:

- Instances:** Shows a health status of 100% (1/1 instance(s) are running). It includes a slider for "MB memory per instance" ranging from 0 to 2048, currently set at 256. An "Instances" control shows 1 instance with minus and plus buttons. An "Edit" link is present.
- Runtime:** A donut chart for "Node.js" shows a "Total MB allocation" of 256. A legend indicates "Free" (white) and "Used" (purple) memory. A note states "1.75 GB still available".
- Runtime cost:** A section for "Current and estimated cost excludes connected services." with a cost display showing \$0.00.
- Connections (1):** Lists a single connection: "node-red--water-moni-cloudant-1668570507100-71795" with a chat icon.

The bottom of the image shows a Windows taskbar with the date and time: 12:30 PM, 16-Nov-22.
